As a forward-thinking React developer, I seamlessly blend technical prowess with strategic insight, delivering top-notch web solutions using React, Redux and other JavaScript libraries. With a solid foundation in computer science and bussiness administration, I bring a proven track record of creating highly efficient and user-friendly web applications. I am eager to discuss how my expertise can elevate your team's success and bussiness objective.

WORK EXPERIENCE

YAV Technologies

(September 01, 2022 - Present)

Frontend Developer

- Developed and Maintained Web Applications using React JS, ensuring high performance and scalability, Implemented state management with Redux to enhance application efficiency and maintainability
- Implemented firebase authenticatons using JWT token and REST APIs to retrive and display data
- Troubleshoot and fixed bugs in frontend to ensure smooth operations.

Byjus

(May 31, 2021 - November 11, 2021)
